Description

Perched on a hill overlooking the Paphos coastline and quaint fishing harbour and within a few minutes this project.

The development consists of 87 units, commands unsurpassed, panoramic views and will be the envy of many and deserving its place in this historic town.

The complex has an ingenious mix of apartments, townhouses and villas within this gated resort.

There are two swimming pools connected by a lazy river meandering between the two pools. The sun terraces around the pools have a pool bar, there is a gymnasium, covered parking and two shops.
